

Dear Aaron,

My name is Montie Pons-Benedict and I am one of the kids that went on the Trout Unlimited fly-fishing camp. I had a lot of fun and I also was one of the campers that got a scholarship. I wanted to write this letter to thank you for the scholarship. I had a lot of fun fishing with the leaders and other campers. I caught a lot of fish including a twenty-two incher.

My favorite part was either learning how to tell how healthy a stream was or camping out. I also liked getting to know the other campers. I could tell if a stream is healthy by how many aquatic bugs there are in the stream. I found a lot of stone flies up there which means that you have a healthy stream. I loved your camp and hope to go again next year.

We also cut down Russian Olices and we learned that they can drink 300 gallons of water a day. We were also in the local Trinidad newspaper. I really liked all the counslers especially Ameen, Mark, Larry and Dick and Jim.

Sincerely,
Montie
