1:00 – “FISHING ON THE BLUE IN SILVERTHORNE WITH THE one and only PAULA FOTHERGILL AND FRIENDS!!!

Following a wonderful lunch experience, off to your choice of fishing the Blue or Shopping, or both.... at the Outlet Malls in Silverthorne! If you are fishing, you might want to drive or carpool to have your fishing gear with you. For you shoppers..... Don't forget to check your “goody bags” for shopping discounts!!

More info than I know I need to know.....but....from the local fishing expert to our lady fisher-experts!!!

Even though the weather has been uneven lately, the fishing on the Blue River in town has remained fairly steady. It's not on fire but fish are being caught at a decent rate.

The nymph fishing has been fair to good under a small, neutral colored indicator. Flies that are working include: size 20-22 black or red Pure Midges, size 20-22 natural Pheasant Tails, size 20-22 red Tailwater Tiny's, size 20-22 cream or black Bling Midges, size 20-22 Juju Zebra Midges, size 20-22 Parachute Adams and size 20-24 Morgan Midges.

Mysis Shrimp are still on the menu, especially in the morning and the evening. But flies imitating tiny midges and small mayflies have generally been more productive. We haven't seen many fish feeding on the surface. Most of the action has been subsurface. As a general rule-of-thumb, the late afternoons and the overcast days hold the greatest possibility of finding fish willing to eat on the surface. But don't expect to find "lights-out" dry fly fishing on the Blue River in Silverthorne on a consistent basis.

“Eventually, all things merge into one, and a River Runs through it”

-Norman Maclean

SHUTTLE WILL LEAVE THE OUTLET MALL AT 4:00 PM FOR THE RESORT!!
