

COLORADO TROUT UNLIMITED YOUTH CONSERVATION AND FLY FISHING CAMP

Engaging the Next Generation of Cold Water Fisheries Conservationists

This 6-day camp provides youth an opportunity to explore the value of healthy streams and clean water and how they relate to our everyday lives while interacting with career experts. Students interact with peers and learn from environmental experts from organizations such as: Trout Unlimited, US Forest Service, Colorado Parks and Wildlife, Environmental Protection Agency, and Natural Resource Conservation Service. The camp program integrates daily conservation classes and fly fishing activities in a fun, outdoor environment.

Classes include: stream ecology, hydrology, entomology and insect census, trout biology and pathology, Colorado water law, political and environmental issues. **Activities include:** Fly tying, casting instruction, fly fishing techniques, wading safety, stream ethics, catch and release, habitat restoration project.
